

## **GOBLIN'S GOOEY APPLES**

### **INGREDIENTS:**

5-8 medium apples (any kind will do)

1 jar of caramel topping/sauce (usually sold in ice cream section)

### **DIRECTIONS:**

Core and peel the apples, then slice them into thin pieces and place them in a decorative bowl.

Warm the jar of caramel sauce in a microwave, or by setting it in a pan of very hot water.

Spoon the caramel sauce over the apples and gently mix. Then spoon a small helping of the apple/caramel mixture into individual serving dishes for all to enjoy!
